

AquaMagic

create water out of thin air™

WATER GENERATORS

HP 120-M

AquaMagic HP120 Water Generator

AquaMagic, Inc. invites you to tap into your own renewable source for pure drinking water with the introduction of its AquaMagic Water Generator. How much water is available? The sky is the limit! It's like harnessing the rain-making power of a cloud in a box. Just power it up and it magically makes water. Well it's not really magic—it's the science and technology of our patent pending AquaFlash system that pulls moisture from the air and purifies it making the water pure, dispensable and storable—all for a fraction of the cost of bottled water. It's a thirsty world. Quench it with AquaMagic!
